> A high performance yet economical Through-The-Wall ATM solution with the look and feel of a full bank ATM. Designed for wall or Kiosk installation, The GT5000 series makes new TTW installation or replacements a snap. Built with the same compact modular components as your existing Genmega machines and engineered for easy installation and reliable operation.

> The GT5000 includes high-end features like a 15" High Bright LCD which support custom advertisements and a 3-cassette cash dispenser with motorized cash presenter. A new Touch-Screen rear-service panel allows convenient and safe access for ATM Operators and Service personal.

"Presenting"
The GT5000 Series
TTW ATM

> The GT5000 series ATM is ADA compliant and Chip Card (EMV) ready, including a PCI / Interac certified encrypting PIN pad (EPP), a voice guidance system, and lighted action indicators (including lighted keypad). Features of a high end Through-The-Wall ATM with the low maintenance and reliability that Genmega delivers makes this an excellent TTW solution.
